

We've got your back Soldier!

Dr. Sam offers Chiropractic Care to anyone who has served or is currently serving in the Military.

For soldiers who have returned from deployment within the last year, he offers **1 year of Complementary Chiropractic Care!**

Our deployed soldiers go through rigorous training and incredible stress on their bodies including a backpack containing a seven day supply of clothing and food, helmet and gear. This load can easily exceed their body weight, and all of that presses down on their spine.

We are offering soldiers who've returned from deployment up to one year ago, a Military Care Plan which includes complete chiropractic services such as spinal adjustments, full x-rays if necessary, rehabilitative services and re-examinations as needed to track your progress for free for one full year!

Infinite Health Family Chiropractic also has a rehabilitation exercise area and complete nutritional counseling including a full line of vitamins and supplements.

For additional information on this Military Care Plan or for other services offered please contact us at 603-753-4455 email at wellness@infinitehealth.biz.

If you have served in the Military but do not qualify for the above care plan you may still be eligible for our Military Discount Plan. This plan allows for your New Patient Examination (including x-rays if necessary) at a reduced price of \$97.00 (a value of \$265.00).
